<thead>
<tr>
<th>Technical Expertise</th>
</tr>
</thead>
<tbody>
<tr>
<td>We hire the best talent in the industry to bring real solutions for your specific needs and challenges. No project or unique design requirement is too difficult for the Watson Bowman Acme team of experts.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Innovation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Watson Bowman Acme has designed and manufactured systems for the world’s most complex projects. With access to BASF’s state-of-the-art research and development resources, innovation continues to be critical to our success. And yours.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Custom Solutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>It’s more than just technical expertise. From custom designs, to full systems created specifically for your project, we are constantly collaborating across our entire team to deliver the most effective results at minimal costs.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Quality</th>
</tr>
</thead>
<tbody>
<tr>
<td>You can’t have quality without commitment to continuous improvement. Combined with a dedication to providing only the highest quality products and services, a recent $2 million+ investment in process and equipment improvements, an ISO 9001:2008 certification, all supported by Lean Six Sigma tools and methodology, we keep manufacturing lean and get you top results—on time and on budget.</td>
</tr>
<tr>
<td>Our proven systems facilitate engineered structural movement capabilities and protect bridges against the deteriorative effects of climactic conditions. Precision machine manufacturing of steel shapes combined with extruded neoprene seals satisfy both movement flexibility and waterproofing protection for bridge structures.</td>
</tr>
</tbody>
</table>
Partnership, support, and deep expertise

Watson Bowman Acme, a BASF Construction Chemicals business, is at the industry forefront of the preservation and maintenance of expansion control systems.

Watson Bowman Acme provides technical support and product solutions for the most complex and challenging applications, with deep expertise across all industries.

Watson Bowman Acme provides technical support and engineered product solutions for the most complex and challenging applications.

WBA has a strong track record in supplying best-in-class products and services to satisfy unique demands of Infrastructure Design-Build projects. Utilizing knowledge gained as a leader in expansion control system research and testing, WBA can design project-specific solutions to fit virtually any design requirements.
